

His Print Media Ministries Overstock Tracts on Hand as of 1/18/2023

Introduction: Printed and ready to distribute (with many already folded and shrink wrapped) have been sitting on our shelves with little activity. We want outreach and street ministries to pass them out. We are asking a donation plus shipping for these "on hand" tracts. By this accounting (list), and the hyperlinks to the tract documents on our website as a means of determining what each listed tract is about, the invitation to utilize these tracts is simplified. On a computer device with internet access, clicking on the hyperlinked text for a tract, takes one to the location of a thumbnail picture of the tract on our website www.tracts4u.com. From that point, an additional click enables one to read the tract online, or, download a printable version.

Most of these pre-printed tracts have a space on the back to add a contact address, either by a rubber stamp, or by unfolding the tract and running it through an inkjet printer from a custom computer document containing just the address.

This list contains predominately English, Spanish, Portuguese, and Swahili tracts. The website has additional foreign language tracts.

We are also able to making evangelism related flyers and posters for a fee.

Tract documents posted on our website that are not in this list, can be downloaded to make tracts yourself. A free 446 page full color PDF e-book [Christian Evangelism Printing](#) shows how to do this. In Addition we offer 22 free [Youtube online training videos](#). We can make these non-listed tracts, for a fee, on demand in limited quantities on our professional laser printer; or, for a fee, print large quantities on our one and two color offset printing presses.

We also design (without charge), and print (for a fee), custom tracts of your choosing with your church contact information on them.

Note – RE: New source of gospel tracts is now available. In 2023, we took over the printing and shipping for the Free Tract Society of Los Angeles. Their website www.freetractsociety.net, has been redesigned, and 261 tract cover thumbnail images, along with free use PDF printable documents are now posted under the pull down menu titled [Downloadable Tracts](#). The Free Tract Society is closed, and

exists as a referral name to His Print Media Ministries managed by Evangelist David and Rev. Harriet Hupp.

The additional printed or “print on demand” tracts not listed in this document (from both HIS Print Media Ministries, and, The Free Tract Society) are not free, but \$10 a pound plus shipping. Free English and Spanish printed tract Sample packets are available upon request for a shipping fee of \$10.
